Dear Chris,

Reference: Professional Indemnity protection for Webkick Ltd

Thank you for sorting out our PI cover. I have tried in vain over the last few years to obtain suitable cover for our business at the right price. On one occasion the first question I was asked following my enquiry to a broker was: *"How long is a piece of string?"*

The reason I am writing this testimonial is to share my experience of getting business protection with MRSL Enterprise. It was easy and straight forward without lots of difficult questions (or red tape). I received a simple quotation with a choice of three insurers and a recommendation on which would best suit our current business needs.

Chris also provided clear advice on the right amount of cover we should have in place (with no strings attached). This not only saved us money, it also means we are now less likely to get sued!

So if insurance and protection matters are tying you up in knots, then I recommend you talk to Chris Cloke-Browne. To quote Shakespeare (Henry V, Act 1 Scene 1)...

*"Turn him to any cause of policy,
The Gordian Knot of it he will unloose"*

Many thanks again.

Yours sincerely,

Edward Thomas
